

VIEDIERIE

The First International Magazine on Optics and Eyewear - September 2017

50
SPECIAL SILMO

This season's AW17 collection from **FLEYE Copenhagen** is dedicated to Scandinavian food culture, intended to inspire with the colors, textures, and layerings of Danish smørrebrød.

Colors, patterns and finishes give a unique look to the latest **FYSH UK** releases. Feminine and flattering thanks to its soft modified cat eye shape, **F-3583** exhibits an intricate floral laser cut pattern on the front and temples, then digitally printed with 5 colors.

KOMONO, the Belgian watch and eyewear brand, has introduced its **Core and Crafted** sunglasses collections. In the **Rose Quartz** collection a warm translucent pink frame is complemented by a cool translucent turquoise temple.

Via Spiga Odetta by **Zyloware** is available in three on-trend colors. This semi-rimless metal in a modern cat-eye effortlessly transitions from a professional look to a night out with a wink.
