### WESTGROUPE, FYSH UK, F-3591

Raised patterns, layering and color contrasts come into play on four women's models. The diamond-shaped, laser-etched pattern of F-3591 has been treated with epoxy lacquer for a glossy finish. With a gradient acetate front, F-3594 has a custom, five-barrel hinge plus a universal-fit bridge and lower nose pad height. 855.455.0042, [WestGroupe.com](http://WestGroupe.com).
