

**TREND #5****LOUD + CLEAR.**

Graphic prints make themselves known on sunwear this season, in everything from the animal inspired to logo infused.

From top: The **Isabel Marant** IM0005/S from **Safilo** is an oversized and modified rectangle emblazoned with an avant-garde zebra print on acetate. The **Fysh** F-2080 from **WestGroupe** is a glam silhouette accented with a print that channels a collage of stained glass. The **Valentino** VA4096 from **Luxottica** is a polished rectangle in acetate that boldly goes into the modern logo zone.
