

OPTICAL PRISM

THE MAGAZINE FOR EYECARE PROFESSIONALS

OPTICAL PRISM | PREVIEW

WESTGROUPE

The FYSH Sun 2021 collection by WestGroupe features sunglasses with delicately crafted cut-outs, textured leather details, glamorous embellishments and feminine colour palettes.

To accentuate the already-daring cat eye shape, the new F-2057, F-2060, F-2061 and F-2062 styles each have artistically placed angular cut-outs at the edge of the frame.

The F-2065, meanwhile, boasts genuine leather detailing wrapped around the top eye rim that enhances this core classic aviator shape.

The retro-square combination F-2058, ultra-thin stainless steel F-2068 and combination F-2064 styles are each oversized sunnies. The F-2068 features an animal print along the eye rim, while the F-2064 boasts a hexagon shape in translucent acetate that is cut down by CNG milling, providing a layered look with a sheer overlay.

Rounding out the collection are the Mazzucchelli acetate F-2063, which offers creative expression with its angular shape and playful mosaic colourways, the F-2059, which is embedded in Swarovski crystals along the brow line, and the vacation-inspired F-2066 and F-2067.
