

*Modernly Historic*

Born from a desire to integrate historical styles into modern eyewear, the [Meta-Evo Rx](#) collection from Dita Optical debuts as Dita's first all-rimless style in more than 20 years. The DTX154, pictured here in antique silver blue swirl, features frames finished with screw-mounted lenses. The style is also available in yellow gold with ink swirl or arctic swirl temples.

*Sleep Tight*

Now available for purchase, [SleepTite/SleepRite](#) works to help keep the eyelid sealed shut during sleep, allowing it to function normally to protect the cornea and conjunctiva, says Ophthalmic Resources Partners. Utilizing a porous, latex-free design, the product is simple to apply and available for patients with regular and sensitive skin types.

*Moroccan Moods*

Shot by fashion photographer Yu Tsai, the Moroccan-themed campaign highlights mesmerizing mosaics that pair with the color palette and design features of [Fysh's 2022 eyewear and sun collection](#). "The result is a bold, sophisticated visual campaign that perfectly reflects the Fysh brand and consumer," says Alexis Nyiro, director of marketing and product development at WestGroupe.

*Liquid Tech*

The Xenon-1 headset has the potential to transform visual field assessment for doctors and their patients. It contains liquid lens technology that can be customized to each patient's refractive error. The device instructs the patient on how to proceed with testing, and doctors can access exam data in real time through a paired tablet. Learn more about this novel technology [here](#).
